

Dosimetry Services for Radiation Processing

Alanine Reference Dosimetry Price List

1 January 2012

Alanine Reference Dosimetry Service (RD.06.01)

Dosimeter type	Dose range	Net price (each)	Minimum order quantity per product
Alanine Dosimeters Holder G	20 Gy–100 kGy	£ 125.00	10
Alanine Dosimeters Holder E	20 Gy–100 kGy	£ 125.00	10

Ordering

An official order or order number is required before work can begin. To place an order either email directly to chemdos@npl.co.uk or FAX on +44 (0)20 8943 6680. In both cases written confirmation by post is required.

Please ensure all documentation is clearly marked for the attention of the appropriate dosimetry specialist, as listed below. The postal address is: National Physical Laboratory, Radiation Dosimetry, Teddington, Middlesex, United Kingdom, TW11 0LW.

Prices include measurement and certification of dose received. All dosimeters from an order are normally measured together - if measurement of a part order is requested, an additional charge will be made. Payment terms are Net 30 days. All orders are subject to NPL Terms & Conditions - available on request.

Shipping

Prices do not include shipping, all shipping costs will be added to the invoice. Despatch is normally within 2 weeks of receipt of order, but specific despatch dates will be met by prior arrangement. All dosimeters are shipped by courier or equivalent carrier.

Further Information

More details about chemical dosimetry services can be found at the chemical dosimetry home page: <http://www.chemdos.npl.co.uk/>. Alternatively, if you would prefer to speak to one of our dosimetry specialists then please contact:
